History/Geography		Computing
<p>We will be finding out about the sinking of the Titanic. We will look at a mystery box of artefacts and make predictions about the passengers on board the ship. We will develop our enquiry skills by looking at a range of different historical sources to draw conclusions about what caused the unsinkable ship to sink!</p> <p>We will be finding out about the route the Titanic took across the Atlantic Ocean and how it had never been done before on such an impressive cruise liner. We will be mapping the route from Southampton to New York, learning how to name the continents and oceans of the world.</p>		<p>Animation - we will be creating a 'stop animation' of the sinking of the Titanic using Lego and an iPad.</p> <p>Virtual Reality experience - we will be looking at the Titanic interior showing first, second and third class.</p>
		Art
		<p>Observational drawings of the Titanic.</p> <p>We will develop a wide range of art and design techniques using colour, pattern, texture, line, shape, form and space.</p>
